Maschinen- u. Antriebstechnik GmbH

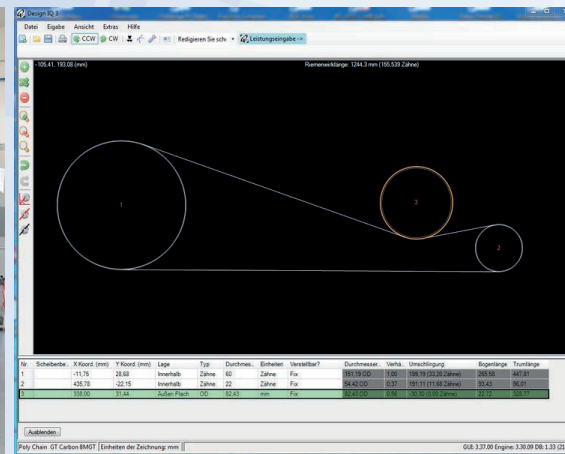

Toothed belt and chain drives

## The specialist for your drive system

*Everything is possible: reworked standard components or custom-made products according to drawing, for OEM and MAINTENANCE - with MAT you have a reliable specialist for all components of drive technology at your side.*

*Individual solutions for every requirement to optimize your machine processes is our mission!*

- ▶ support on choosing the right drive system
- ▶ design, calculation and drive optimization by using Gates DesignPower
- ▶ extensive manufacturing options: turning, milling, gear cutting, drilling, grooving
- ▶ processing of standard components and production of drawing parts
- ▶ more than 10,000 articles available from stock
- ▶ tooth belts, V-belts, chains, clamping sets, couplings and roller bearings from stock
- ▶ manufacture of pulleys, sprockets and gears according to drawings
- ▶ production of assemblies and complete drive units
- ▶ custom-made products available from  $\geq 1$  pcs.

## -----> Our products

### Tooth belt, pulleys

- ▶ T/AT
- ▶ Poly Chain
- ▶ HTD
- ▶ MR
- ▶ Imperial pitches

### V-belt, pulleys

- ▶ Classic profile
- ▶ Z/A/B/C/D
- ▶ Narrow V-belt
- ▶ SPZ/SPA/SPB/SPC
- ▶ Micro-V
- ▶ PJ/PK/PL/PM
- ▶ Poly-V
- ▶ 3M/5M/7M/11M
- ▶ Quad Power 4 – the maintenance-free V-belt from Gates

### Chains, sprockets

- ▶ BS
- ▶ ANSI
- ▶ Chains with attached parts

### Spur gears

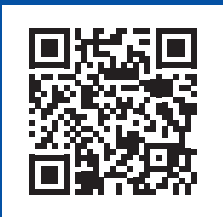

- ▶ Module 1-8
- ▶ Bevel gears
- ▶ Worm gears
- ▶ Toothed racks

### Couplings, clamping elements etc.

- ▶ Taper bushings
- ▶ Clamping sets
- ▶ Couplings
- ▶ Shaft-hub connections
- ▶ Chain couplings
- ▶ Cardan shafts
- ▶ Slip hubs
- ▶ etc.
